

X-85

The high end cyclocross bike

- Carbon cyclo-cross frame HM 120 gr/m²
- Very lightweight: frame alone 1150 gr.
- 100% carbon fork
- FLEX bases and stays

The nec plus ultra in cyclocross bikes

Rear stays have designed for optimal mud evacuation

Disk brakes for maximum efficiency, even in the most extreme conditions

Technical data

FRAME / FORK	X-85 CARBON/ DISC CARBON FORK
HEADSET	FSA CARBON, 1 1/8 DIAM = 41 MM // BEARINGS = 36 INT / 45 EXT.
SEAT POST	FSA GOSSAMER 27,2MM
CRANKSET	SHIMANO ULTEGRA 11S 46X36 6800
SPROCKET	SHIMANO 105 11S 11X28 5800
BRAKES / SHIFT LEVERS	SHIMANO ULTEGRA 2X11S 6800
REAR DERAILLEUR	SHIMANO ULTEGRA 6800

FRONT DERAILLEUR	SHIMANO ULTEGRA 6800
CHAIN	SHIMANO CN-HG 600 11S
BRAKE ARMS	SHIMANO CABLE DISK CX77
DISC BRAKES	SHIMANO SMRT67 160MM
SADDLE	FIZIK ARDEA
HANDLEBAR	FSA OMEGA COMPACT
STEM	FSA GOSSAMER
RIBBON	LOOK GRIP
PEDALS	LOOK S-TRACK
WHEELS	SHIMANO WH RX 31 DISC
TIRES	CONTINENTAL CYCLO X KING 700X32
ACCESSORIES	BIKE COVER
WEIGHT	9 KG (SIZE M - WITHOUT PEDALS)

Technology

UD CARBON COMPOSITION 120 GRAMS / M²

The X-85 is a 100% carbon cyclo-cross frame of "Tube to Tube" technology assuring solidness and lightness (only 1150 grams in M size). It benefits of all of LOOK's know-how in the composition of carbon frames since 25 years and notably in the orientation of rigidities. This technology allows differentiating lateral rigidity (+ 25%) from vertical rigidity so as to have a bike presenting both high performance and unequalled comfort.

COMPATIBLE WITH SI DISC BRAKE ATTACHMENT

The X 85 is designed to receive disc brakes of 160 mm in diameter in direct attachment on the frame and the fork. Cable or hydraulic brakes can be mounted. So as to assure compatibility with a large number of wheels the axle spacing of the rear wheel is 135 mm. All 29" MTB wheels with disc hubs are thus compatible.

FLEX BASES AND STAYS

The bases and stays are designed and have a carbon composition assuring the filtration of important vibrations. The top of the wishbone is designed to easily evacuate mud.

27.2 MM SEATPOST COMPATIBLE

The X 85 is compatible with all the 27.2 mm diameter seatposts on the market. The choice of this diameter was done for it allows the best seatpost flexion to guarantee excellent comfort.
